SKILL SET

UX/UI design | Lean UX | Outcomes-based design | Branding | Interaction design | Visual Design | Usability Research | Mobile design | iOS, Android, Windows | HTML, CSS

EXPERIENCE

User Experience Designer | Microsoft | 2011—Present

Currently a member of Server and Management Studios (SAMS), the central UX design/research team for the Enterprise Cloud division. I design mobile, desktop and Web experiences for large enterprise companies around the globe. Recent work includes the MS Intune Self-service Portals (iOS and Android)—mobile apps that support Mobile Device Management in large companies, allowing secure corporate data to employees on their personal or corporate-owned mobile devices. Currently I'm doing design work on IT Pro scenarios for the web-based Intune admin console.

UI & UX Designer | Microsoft | 2010—2011

(Contract: Volt, Redmond, WA.) Led interaction and visual design for a MS Bitlocker Administration and Monitoring product—a desktop application and web application serving enterprise IT Pros and Information workers.

Creative Director | Apex Wine Cellars & Saunas | 10/2009—4/2010

Led marketing, communications and creative department for this mid-size manufacturing company based in Woodinville, WA, with 22 branch locations across the US, UK, and South Korea.

Web Designer | Microsoft AdCenter Labs | 2008—2009

(Contract: Filter Talent, Bellevue, WA.) Lead the user-experience design for web sites and interactive demos of this online advertising, technology incubation team.

Owner | McRae Graphic Design | 2003—2011

Freelance print and interactive creative services: branding/identity, marketing collateral, advertising, publications, packaging, web UI design, user-experience design and Flash animation design. Clients included design firms, ad agencies and small-to-medium-sized businesses.
